The word "Customer" is used to indicate the owner (or his or her authorized representative) of any Vessel serviced by SEA. No subletting allowed.
2. The Customer shall have his or her Vessel insured for complete marine coverage, including liability, and shall provide a copy of such policy and expiration date to SEA upon request. Hull liability coverage must be in place prior to hauling. When decommissioning, SEA will check and remove transom plugs only, removal of all other plugs are the responsibility of the owner, including installation of these same plugs by the owner in the spring. Batteries will be turned off and/or disconnected during storage.
6. SEA shall not be responsible or liable for delays in hauls, launches, winter storage decommission or spring commission due to weather or other incidents beyond its control. Requested dates are not firm commitments and are subject boat location (typically last-out, first-in) and work schedule. Owners must take responsibility for arranging scheduling services in advance. Boats without haul or launch dates may need to be moved into summer storage, at published rates for lift services and storage. SEA will not be responsible for schedule conflicts or for damages arising from late notification for hauls when there is a risk of freezing temperatures. Service rates for hauls scheduled 12/8-3/10 will carry a 25% "freezing fingers" surcharge.
